Church History, Volume Two: From Pre-Reformation to the Present Day: The Rise and Growth of the Church in Its Cultural, Intellectual, and Political Context. John D. Woodbridge. 4.7 out of 5 stars 154. Church History offers a unique contextual view of how the Christian church spread and developed. It did so not in a vacuum, but in a setting of times, cultures, and events that both influenced and were influenced by the church. Church History looks closely at the integral link between the history of the world and that of the church. Volume one explores the development of the church from the days of Jesus to the years prior to the Reformation. The British church was a missionary church with figures such as St Illtud, St Ninian and St Patrick evangelising in Wales, Scotland and Ireland, but the invasions by the pagan Angles, Saxons and Jutes in the fifth century seem to have destroyed the organisation of the church in much of what is now England. In 597 a mission sent by Pope Gregory the Great and led by St Augustine of Canterbury landed in Kent to begin the work of converting these pagan peoples. What eventually became known as the Church of England (the Ecclesia Anglicana - or the English... Church History, Volume One: From Christ to the Pre-Reformation: The Rise and Growth of the Church in... by Everett Ferguson Hardcover S$59.08. Ships from and sold by Book Reach (USA). Documents of the Christian Church by Henry Bettenson Paperback S$46.02. In stock. Ships from and sold by TheWorldShop. This guy clearly loves evangelicals of all sorts and really doesn't want to come to terms with the deeply racist culture and politics that are the basis of their faith traditions. That might, after all insult potential purchasers of this textbook. Read more. Church History, Volume One: From Christ to the Pre-Reformation: The Rise and Growth of the Church in Its Cultural, Intellectual, and Political Context. By Everett Ferguson. Start your free 30 days. Church History offers a unique contextual view of how the Christian church spread and developed. It did so, not in a vacuum, but in a setting of times, cultures, and events that both influenced and were influenced by the church. Church History looks closely at the integral link between the history of the world and that of the church. Volume One explores the development of the church from the days of Jesus to the years prior to the Reformation. The church and its history. The essence and identity of Christianity. At its most basic, Christianity is the faith tradition that focuses on the figure of Jesus Christ. In this context, faith refers both to the believers’ act of trust and to the content of their faith. As a tradition, Christianity is more than a system of religious belief. It also has generated a culture, a set of ideas and ways of life, practices, and artifacts that have been handed down from generation to generation since Jesus first became the object of faith. Christianity is thus both a living tradition of faith and the culture that the faith leaves behind. The agent of Christianity is the church, the community of people who make up the body of believers.
