Topical Table of Contents x
Others, however, think that they should save it for the future. Discuss both views and give your own opinion. People have different lifestyles. While some people are focused on living their lives the way they like, no matter how much money they spend, others tend to be more future-oriented and think of keeping their money for futuristic goals and unexpected needs (I’m talking about contingency factors). Although this lifestyle is keen on the happiness of the individuals at the present, it does not guarantee it. People have different lifestyles. While some people are focused on living their lives the way they like, no matter how much money they spend, others tend to be more future-oriented and think of keeping their money for futuristic goals and unexpected needs (I’m talking about contingency factors). Although this lifestyle is keen on the happiness of the individuals at the present, it does not guarantee it.

Need to choose essay topics about the future? The list of issues concerns various aspects of human life - education, healthcare, technology, etc. Choose the most valuable ones for your essays and follow the tips! Mention the most promising directions in which we can move: geothermal energy, wind energy, biofuels and so on; Write about how you see the picture of global energy production in the 2030s.

Future Homes: Will We Recognize Them as Such? The future depends on what you do in the present, as you make your own future with your thoughts, words and deeds. Write down your goals for the future and follow them. I have seen myself in many different past lives in dreams and in visions. I sat down and wrote everything I remembered about each life. I am very proud to say that my father has been recovering for 21 years now and we could not be more proud of him. All of this brings me to my teenage years. As a teenager, I was, as most teenagers are, rebellious, defiant, and thought that I knew it all. They are used in business, hospitals, crime detection and even to fly planes. What things will they be used for in the future? Is this dependent on computers a good thing or should we be more suspicious of their benefits. Nowadays, computers are playing extensive role in our daily life's working such as business documentation, crime detection, moreover fly planes. First of all, computers are helping us to save our time and it is also help us to maintain environment green due its ability of paperless working. For instance, to apply for any government job was lengthy process, now it is matter of one click. We have just simply log on to the concerned department's site & submit the application. By this, we can save both time & paper. Moreover, tracking application status is become very easy. In this Essay of Save Environment will discuss ways and benefits of saving the environment.

Benefits of Saving Environment. First of all, the world climate will remain normal. Harming the Environment and causing pollution have caused global warming. Due to this many humans and animals have died. Hence, saving the environment would reduce global warming. The health of people would improve. Due to pollution and deforestation, the health of many people is poor. Conserving the Environment would certainly improve the health of people. Most noteworthy, saving Environment would reduce many diseases. Saving Environment would certainly protect the animals. Extinction of many species will not take place due to saving Environment.
