Book details Paperback, 5 ½ x 7 ½, 208 pages, plus 64 pages of full color photography inserts.
Categories Science meets Spirituality

Description After literally stumbling into orbs appearing as bright as light bulbs in photographs he was
taking at a spiritual retreat, Dr. Klaus Heinemann immediately sensed that he was onto
something profound. There was no choice but to convince himself that his notion was on solid
grounds. Heinemann looked at thousands of pictures he had taken earlier, and thousands
more would be taken to test the hypothesis that these light circles are nothing less than
emanations from Spirit beings.

Dr. Micael Ledwith had a similar experience. He began an intense and systematic study of
orbs in all sort of situations, day and night, and in all sorts of atmospheric conditions, in order
to discover all he could about their nature, the situations in which their presence could be
most easily detected, and what implications they might have for our understanding of our own
place in the cosmos. He has amassed a collection of well over 100,000 images.

In The Orb Project, Ledwith and Heinemann present their fascinating discoveries, along with
practical tips that amateur digital photographers can use to photograph orbs and properly
distinguish them from “false” orbs that are really dust or water particles. They offer guidelines
on deciphering the orbs’ various patterns, features, and characteristics,

The authors also explore communication with orbs and what their existence means to our
lives. The implications of a realization that we are “surrounded by a cloud of witnesses” are
enormous and incredibly hopeful for the world at large.
Many influential artists have been involved with The Orb since the beginning and the project still keeps evolving and adapting. Dr. Alex Paterson, the gravitation centre of the Orb is known for his playfully subversive remixes and true to form this CD highlights the diversity of his musical mind. The Great Orb Project is a Runecrafting minigame located in the Runecrafting Guild. The Great Orb Project was originally created as a research project by Runecrafting wizards which involves two teams gathering different orbs near various Runecrafting altars. To play this game, players must have at least level 50 Runecrafting. The minigame can be played from the Runecrafting Guild, which can be accessed through a portal on the top floor of the Wizards' Tower, found south of Draynor and south-west of...
